

LegalEase: AI-Powered Legal Document Generator

Phase 1: Brainstorming & Ideation Phase

Generating and refining the idea for LegalEase, an AI-Powered Legal Document Generator.

Project Phase Details

Area	Details
Problem Identified	Creating legal documents manually can be time-consuming and difficult for users who are unfamiliar with legal formats.
Proposed Solution	LegalEase is designed to generate structured legal documents from user-provided information with the help of AI.
Target Users	Students, individuals, small businesses, and users who need basic document drafts.
Core Idea	Collect required information through a simple interface and generate a suitable legal-document draft.
Initial Features	User-friendly form, document templates, AI-assisted generation, preview, editing, and download.
Expected Outcome	A clear project concept, feature list, and initial scope for further development.

Phase Outcome

This phase contributes to the development of LegalEase by completing the activities described above and preparing the project for the next phase.

Academic Project Note: LegalEase is an AI-assisted drafting project. It does not replace professional legal advice, legal review, or applicable local legal requirements.
