

LegalEase: AI-Powered Legal Document Generator

Phase 8: Project Demonstration Phase

Presenting the completed LegalEase project and demonstrating its main workflow.

Project Phase Details

Area	Details
Introduction	Briefly introduce LegalEase and explain the problem and proposed solution.
Feature Demonstration	Show document-type selection, information entry, AI generation, preview, editing, and download.
Workflow	Demonstrate the complete flow from user input to generated document.
Technical Explanation	Briefly explain the frontend, backend/API, AI integration, and document-generation components.
Testing Evidence	Show selected test cases and explain how important issues were handled.
Conclusion	Summarize the completed system, its usefulness, limitations, and possible future enhancements.
Important Note	LegalEase should be presented as an AI-assisted document drafting tool. Generated content should be reviewed by a qualified legal professional when legal accuracy is important.

Phase Outcome

This phase contributes to the development of LegalEase by completing the activities described above and preparing the project for the next phase.

Academic Project Note: LegalEase is an AI-assisted drafting project. It does not replace professional legal advice, legal review, or applicable local legal requirements.
