Empathy Map Framework

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

SAYS • 'Hiring a lawyer for every basic NDA is destroying our runway.' • 'I just want a quick, valid contract without waiting days.' • 'Is this document actually legally binding in my region?'	THINKS • I hope this AI tool doesn't miss critical liability loopholes. • Standard online templates never fit my exact business case. • I need something professional enough to show strict venture capital investors.
PERSONA NAME Sarah (Startup Founder / Small Business Owner) Target User Group: Entrepreneur needing accessible, fast, and secure legal contracts.	
DOES • Uses generic, unverified templates found on search engines. • Spends hours manually tweaking clauses line-by-line. • Postpones key partnerships because of legal delays or high legal fees.	FEELS • Overwhelmed by dense, confusing legal jargon. • Anxious about hidden liabilities or compliance issues. • Stressed about balancing legal safety with a tight startup budget.
