Customer Journey Map

Map out the customer's experience stage-by-stage, capturing their actions, touchpoints, thoughts, and feelings, along with process ownership and improvement opportunities at each stage.

Phase of Journey	Stage 1: Input & Context Gathering	Stage 2: AI Generation & Customization	Stage 3: Verification & Legal Sign-off
Actions <i>What does the customer do?</i>	• Accesses LegalEase web wizard • Selects document type (e.g., NDA) • Fills out guided questionnaire in plain English	• Reviews real-time generated draft • Interacts with AI clause analyzer to clarify legal jargon • Tweaks specific parameters	• Approves final contract version • Invites counter-party via secure email link • Signs using built-in digital signature workspace
Touchpoint <i>What part of the service do they interact with?</i>	• Plain-English Form Wizard UI • Live Form validation tooltips	• Interactive Dynamic Document Split-Screen Editor • AI Explainer Side-Panel	• Multi-party Sign-off Dashboard • Export Engine (PDF/Docx download links)
Customer Thought <i>What is the customer thinking?</i>	• "This conversational interface is much easier than standard forms." • "I hope I am inputting the right conditions."	• "Wow, the clause analyzer explains things clearly." • "Is this text 100% jurisdiction-compliant?"	• "Perfect, it's done without manual legal fees." • "Can the other party sign this smoothly?"
Customer Feeling <i>What is the customer feeling?</i>	• Relief from dense legal terminology • Hopeful but slightly cautious about inputs	• Empowered by clear explanations • Confident seeing professional clauses form	• Highly satisfied with instant output • Secure and ready to execute agreement
Process Ownership <i>Who is in the lead on this?</i>	Deepan (Frontend Form Design & User Flow UX)	M Mohammed Abdul Rahman (Core LLM Generation) Lingaraj S (Clause Analysis Backend)	Sakthi (E-Sign Integration & Secure Document Delivery Framework)
Opportunities <i>How can we improve this stage?</i>	• Add smart smart-fill presets based on industry type to speed up entry.	• Integrate a real-time state compliance flag system to ensure local legal validity.	• Create an automated calendar reminder flow for expiring contract renewals.
