Date	30 September 2026
Team ID	SWTID-2026-6449
Project Name	LegalEase: AI-Powered Legal Document Generator
Maximum Marks	5 Marks

Canvas Mapping Framework

Canvas Box / Code	Project Content Specifications
1. CUSTOMER SEGMENT(S) [CS]	Small business owners, startup founders, freelancers, and independent contractors who lack dedicated in-house legal councils or compliance teams.
2. PROBLEMS / PAINS + FREQUENCY [PR]	High cost of traditional legal drafting (\$200+/hour) and slow turnaround times. Occurs multiple times a month during contractor onboarding, partnership agreements, and client signings.
3. TRIGGERS TO ACT [TR]	Immediate business needs requiring rapid legal safety covers, such as an unexpected investor meeting requesting an NDA or onboarding a new vendor by tomorrow morning.
4. EMOTIONS BEFORE / AFTER [EM]	Before: Anxious, stressed about legal loopholes, and overwhelmed by complex legal jargon. After: Relieved, confident, and secure knowing their generated documents are robust and valid.
5. AVAILABLE SOLUTIONS PROS & CONS [AS]	Traditional Lawyers: High reliability (Pro), but extremely slow and expensive (Con). Online Static Templates: Fast and free/cheap (Pro), but generic, uncustimized, and legally risky (Con).
6. CUSTOMER LIMITATIONS [CL]	Highly constrained bootstrapped startup budgets, lack of legal expertise, and a reliance on mobile devices or fast web apps while on the move.
7. BEHAVIOR + ITS INTENSITY [BE]	High intensity copying and pasting generic, unverified legal clauses from search results, hoping they fit their regional laws without knowing the hidden liabilities.
8. CHANNELS OF BEHAVIOR [CH]	Online: Browsing template websites, legal blogs, or untrusted public code/text repositories. Offline: Asking peer networks for old contract files to copy.
9. PROBLEM ROOT / CAUSE [RC]	Traditional legal services are structurally unscalable for micro-transactions, creating an artificial barrier that locks out small businesses with tight budgets.
10. YOUR SOLUTION [SL]	LegalEase: A plain-English guided web wizard that orchestrates advanced LLMs to create tailored, instantly downloadable, and highly compliant legal agreements.
