Communication Plan Matrix

S.No	Communication Type	Frequency	Channel / Tool	Participants	Purpose
1	Team Standup	Daily	Discord Voice	All Members	Syncing daily individual progress and tracking server states.
2	Progress Update	Weekly	GitHub Projects	All Members	Reviewing sprint burn-down rates and tracking task distributions.
3	Issue Discussion	As Needed	Slack Channels	Affected Engineers	Resolving LLM response syntax exceptions and debugging errors.
4	Stakeholder Review	Bi-Weekly	MS Teams	All & Evaluators	Presenting system builds and collecting layout feedback.
5	Final Demo Rehearsal	Once	Zoom Platform	All Members	Perfecting presentation flow and testing live API data speeds.

Communication Challenges & Resolutions

S.No	Challenge Faced	Resolution / Action Taken
1	Asynchronous merge conflicts on GitHub when integrating frontend components.	Established strict Git branch rules and automated pull request notifications on Slack.
2	High processing latency during simultaneous LLM generation API calls.	Configured an API gateway request queue system along with standard JSON payload caching protocols.
