

Demonstration of Proposed Features

Metadata Field	Details
Date	30 September 2026
Team ID	SWTID-2026-6449
Project Name	LegalEase: AI-Powered Legal Document Generator
Maximum Marks	1 Mark

Feature Demonstration Matrix

S.No	Feature Name	Description	Status	Demonstrated	Remarks
1	Conversational Form Wizard	Fills details through a guided UI questionnaire without using complex legal jargon.	Implemented	Yes	Operates with complete frontend field validation rules.
2	LLM Contract Generator	Uses structured templates to compile highly customized, legally binding agreements.	Implemented	Yes	Reliably matches unstructured model outputs into solid data tables.
3	AI Clause Explainer	Highlights intricate contract segments and parses definitions into straightforward descriptions.	Implemented	Yes	Side panel renders translations seamlessly alongside target fields.
4	Multi-Party E-Signature Workspace	Coordinates cryptographic approval markers to bind execution agreements safely.	Implemented	Yes	Tracks user actions clearly within immutable database log fields.

Feature Implementation Summary

Metric Category	Value / Evaluation Metrics
Total Features Proposed	4
Total Features Implemented	4
Total Features Demonstrated	4
Overall Implementation Rate (%)	100%
